THERE'S NO PLACE LIKE (WORKING FROM)HOME
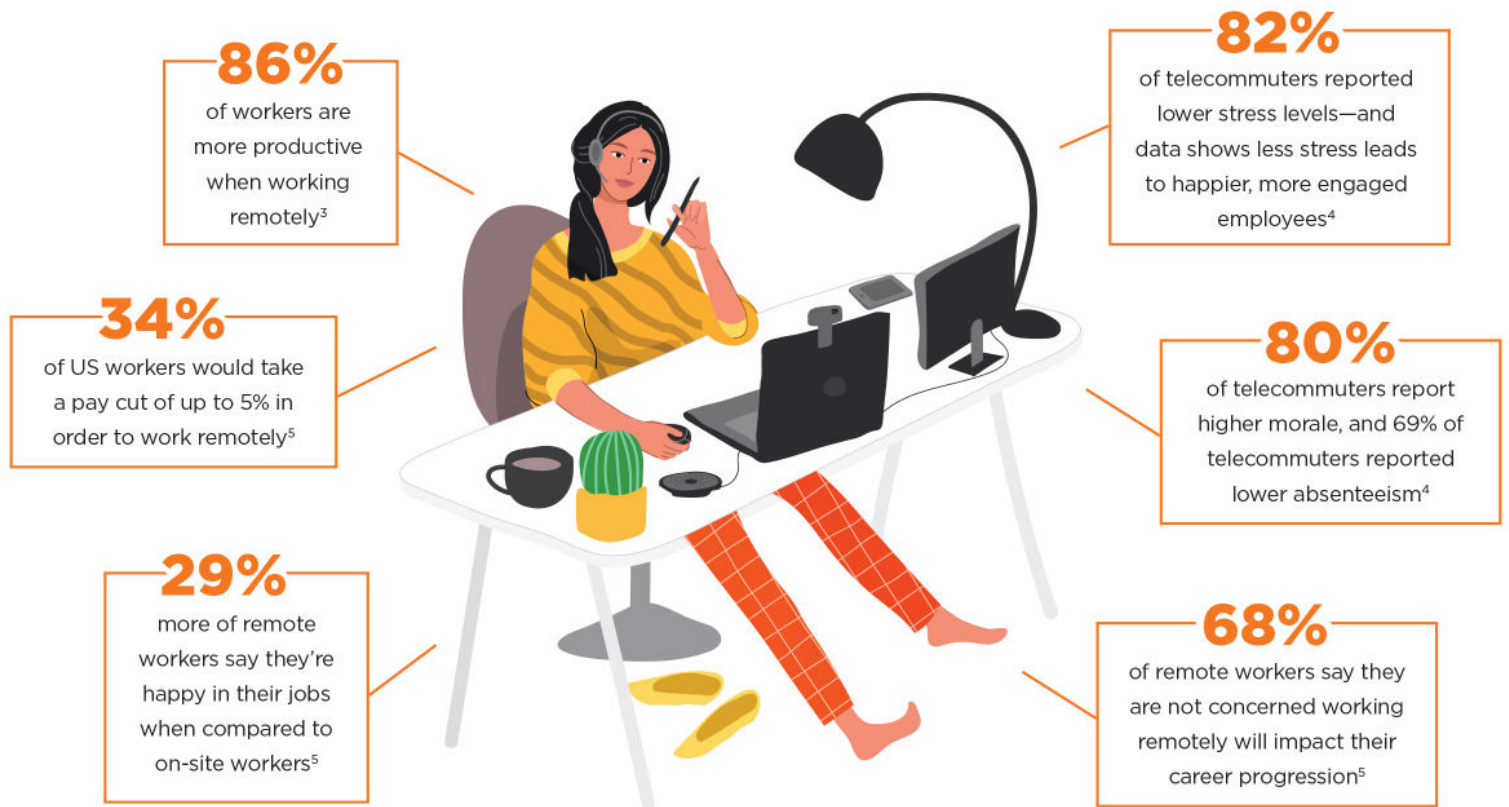

Telecommuting is no longer a choice for many workers. Its a necessity. In fact, Upwork predicts 73% of all teams will have remote workers by 2028[1]. Moreover, Gartner predicts that, by 2030, the demand for remote work will increase by 30%[2].

Let's take a look at the latest telecommuting trends and the industry-leading products and services we offer to make the remote work journey as simple and painless as possible.

REMOTE WORKING TRENDS

86% of workers are more productive when working remotely[3]

82% of telecommuters reported lower stress levels—and data shows less stress leads to happier, more engaged employees[4]

34% of US workers would take a pay cut of up to 5% in order to work remotely[5]

80% of telecommuters report higher morale, and 69% of telecommuters reported lower absenteeism[4]

29% more of remote workers say they're happy in their jobs when compared to on-site workers[5]

68% of remote workers say they are not concerned working remotely will impact their career progression[5]

WE HAVE THE HARDWARE YOU NEED TO GO REMOTE

HEADSETS

wired or wireless models available in choice of wearing style for superior audio and noise cancellation

PHONES

traditional deskphones, personal phones (with dock), or soft client on PCs

CONNECTIVITY

WI-FI | increase productivity and application performance

VPN | secure connection to corporate network and applications

CARRIER AND ISP SERVICES

WORKSPACE DEVICES

MONITOR | slim designs, striking colors, life-like graphics for optimal viewing

KEYBOARD AND MOUSE | variety of models ensures flexibility and ease of use

POWER | total protection against power surges, spikes, lightning, and more

USB VIDEO CAMERA

easy-to-use, high-performance HD, easily connects to PC

SPEAKERPHONE

crystal-clear audio, USB and Bluetooth connectivity

UCAAS AND COLLABORATION SOFTWARE

cloud-based platforms to stay connected and productive— chats, calls, video meetings, file storage, and applications

WE HAVE THE TECHNOLOGIES YOU NEED TO GO REMOTE

CONNECTIVITY

WI-FI | increase productivity and application performance

VPN | secure connection to corporate network and applications

CARRIER AND ISP SERVICES

CONTACT CENTER AS A SERVICE

CCaaS stands for 'contact center as a service' and is defined by call center software that is hosted (or built natively) in the cloud instead of hosted on-premises.

UCAAS AND COLLABORATION SOFTWARE

cloud-based platforms to stay connected and productive—chats, calls, video meetings, file storage, and applications

SOFTWARE DEFINED WAN

Move your network to the cloud and gain additional benefits over MPLS and other private circuits.

DESKTOP AS A SERVICE

Make the move to cloud-hosted virtual desktops. DaaS solutions provide complete hosted desktops for applications and email securely delivered over the web.

SECURITY CLOUD SOLUTIONS

Comprehensive security solutions are more than having a firewall in place and a locked front door. Consider technical solutions, processes to evaluate and react to potential threats, vulnerabilities, and impacts.
