

Prepare for the future now

Achieve greater, secure productivity, using AI with the latest Dell PCs featuring Intel vPro® and Copilot

Maximize AI potential with the protection of advanced data privacy and security measures

Achieve more with less effort using Copilot in Windows*, enabling AI-level efficiency with an AI companion integrated into the world's most intelligent PCs.¹

1 Work confidently from everywhere

with the foundational security and privacy of Dell, Intel® and Windows

Protect your fleet with Dell Trusted Workspace

Stay protected from evolving threats with the built-in defenses of the industry's most secure commercial PCs.² Unique hardware telemetry integrations with AI-enabled cybersecurity software help combat advanced threats and improve long-term cyber resilience. Proactively detect and block attacks across the endpoints, networks, and cloud environments. All foundational to protecting your data.

Maintain workspace privacy

Increase insights and efficiency while keeping business and personal data protected. Your content and search data will be protected within your firewalls and not be saved or used to train AI models.³

70%

attack surface reduction vs older PCs, according to Intel® and IOActive⁴

3.1x

fewer firmware attacks with Windows 11⁵

2 Streamline IT performance

with the latest features from Dell Optimizer, Windows 11 and Microsoft InTune

Enable AI-powered efficiency

Our built-in AI-based software works tirelessly behind the scenes to optimize application performance, delivering a seamless computing experience.

Centralized AI assistance

Copilot in Windows* uses AI to suggest the best ways to complete tasks to help get things done with fewer clicks so you and your end-users can focus on innovation and meaningful work.

Fast, zero-touch modern device management

Dell and Microsoft make life easier for IT teams with fast, zero-touch device management. IT teams can customize, provision and control end-user devices faster and with less effort with Dell Connected Provisioning + Windows Autopilot.

3 Collaborate smarter, not harder

with AI-driven optimizations to give your employees a better conferencing experience

Convenient controls at your fingertips

Ease into your meetings with this exclusive feature from Dell – the collaboration touchpad⁶ allows easy access to Zoom and Microsoft Teams features such as screen sharing, chat, camera and microphone settings.

Voice quality monitoring

Get alerts when your voice quality is poor and others may have difficulty hearing you – only available on the latest Dell business PCs.

Hear and be heard

Intelligent Audio from Dell Optimizer, with Intel[®] Gaussian Network Accelerator, senses your surroundings and enhances the conferencing experience by reducing background noise for you and all call participants.

Fast-track your AI journey

with Dell APEX PC-as-a-Service

Our AI-ready devices and APEX solutions can help you:

Save up to 30%
on support costs⁷

Cut up to 50%
help desk effort⁷

Discover how to
accelerate your AI
journey with Dell AI

* Copilot in Windows is available in preview only and will gradually roll out over the coming months. Copilot in Windows will be available in global markets, including the UK. To learn more, click here. Copilot is NOT available to market in European Economic Area and China. Copilot with commercial data protection is turned on by default for eligible M365 users. It is available to any organization using Microsoft Entra ID at no additional cost.

¹ Based on Dell analysis, November 2023. Dell Optimizer not available in OptiPlex 3000 series, Latitude Chromebook Enterprise, and Linux-based devices. Feature availability and functionality may vary by model. For more details visit: <https://www.delltechnologies.com/asset/en-us/solutions/business-solutions/technical-support/dell-optimizer-features-availability-matrix.pdf>.external

² Based on Dell internal analysis, September 2023. Applicable to PCs on Intel processors. Not all features available with all PCs. Additional purchase required for some features.

³ Copilot with commercial data protection is turned on by default for eligible M365 users. It is available to any organization using Microsoft Entra ID at no additional cost.

⁴ Based on IOActive's "Intel vPro 13th Gen Attack Surface Study" published March 2023 (commissioned by Intel), which evaluates Intel vPro devices powered by 13th Gen Intel Core processors against four-year-old Intel-based PCs on Windows OS. Details at www.intel.com/performance-vpro [intel.com]. Results may vary.

⁵ Reduction in 3.1x in firmware attacks based on SMB Windows 11 Survey Report. Techaisle, February 2022. Windows 11 results are in comparison with Windows 10 devices.

⁶ The Collaboration Touchpad is available on Dell Latitude 9330 and Latitude 9440 2-in-1 computers.

⁷ Based on a Forrester, Total Economic Impact™ (TEI) study commissioned by Dell Technologies, September 2023.
